

Port Management Act 1995

Port Management (Local Ports) Regulations 2015

Set aside area in the Local Port of Port Phillip

Altona Pier

The *Port Management (Local Port) Regulations 2015* enable a Port Manager to make a determination to set aside in a local port an area in which the carrying out of an activity in and access to areas is prohibited (Regulation 10); and berthing, mooring, and anchoring is prohibited (Regulation 12). Regulation 14 permits a Port Manager to specify certain conditions for an activity or access that is subject to a determination.

Under Section 44C of the *Port Management Act 1995*, the Parks Victoria Board has delegated this power to Regional Directors in an instrument of delegation dated 24 October 2023, Version 54.

I, Jodi Heath, Regional Director Southern and Maritime, determine under the *Port Management (Local Ports) Regulations 2015* that the areas indicated in the attached table and map are set aside for the purposes specified or for the prohibition or restriction of activity or access, at the times or periods, and in accordance with the conditions as indicated.

This determination replaces all previous set-aside determinations of specified activities and access and is in force until amended or revoked.

This determination applies from the date of signature.
