Wyperfeld Trip Intentions Form

When organising an individual or group on an overnight hike to a remote location, it is important to inform Parks Victoria of your trip details. This helps improve visitor safety and assists Parks Victoria in planning works within the parks.

For advice about planning an overnight hike in a park visit:

http://parkweb.vic.gov.au/explore/before-you-go

For school groups planning to visit or camp in a park visit:

http://parkweb.vic.gov.au/learning-and-discovery/teachers/excursions/planning-an-excursion

When completed, email, fax or post to the office listed at the top of this form. Alternatively, drop in the box provided in the Wonga Campground Visitor Centre. http://parkweb.vic.gov.au/explore/parks/wyperfeld-national-park/things-to-do/wonga-campground

List any vehicles that	you plan on bringing into the	e park			
Location vehicle will be left at		- 1	Vehicle make/model		Registration No.

Other relevant information: eg. Medical conditions; equipment carried, etc.				
Victoria's desert parks:				
Plan your walks for the cool season. Summer day time temperatures in Victoria's desert country are far too high				
 for safe or comfortable walking Before heading off for a multi-day walk, ensure you inform the nearest Parks Victoria office 				
 Be self 	-sufficient with drinking water. Carry plenty in or know how to make untreated water safe for drinking.			
 Victori 	a's desert parks have very few tracks or roads. Skills in using a topographic map and compass are			
essent	ial.			
Please confi	rm the following:			
	I/we have attached an itinerary and map showing details of our proposed visit			
	I/we have considered plans for fire and emergency access			
	I/we will be carrying appropriate clothing and safety equipment			
	For school groups - I am aware of Parks Victoria's minimimal impact guidelines for school groups and will ensure all staff and students are aware of the contents of the guidelines prior to the visit http://parkweb.vic.gov.au/learning-and-discovery/teachers/excursions/minimal-impact
