## *National Parks Act 1975*

### *National Parks Regulations 2013*

#### **Setting aside an areas of a park as an area to which access is prohibited**

The *National Parks Regulations 2013* have been made under Sections 32AA, 37 and 48 of the *National Parks Act 1975* (Vic.).

The *National Parks Regulations 2013* provide that Parks Victoria, for the purposes of Regulation 10 , may make a determination to set aside an area as an area where an activity or conduct is permitted, required, restricted or prohibited. Parks Victoria may include in the determination any conditions subject to which the activity or conduct must or must not be carried out.

The Parks Victoria Board on 24 October 2023 approved version 54 of the Parks Victoria Delegations Register that delegates specific set-aside making powers under the *National Parks Regulations 2013* to the Executive Band.

Therefore I, Kylie Trott, Executive Director Operations of Parks Victoria, determine under the *National Parks Regulations 2013* that in the 'Closed Public Safety Area(s)' and 'Contingency Area(s)' indicated in the attached table all public access is prohibited at the times or periods, and in accordance with the conditions, as indicated.

Where the area(s) covered by this Determination coincide with the area(s) covered by any other current Determinations, for the purpose of prohibiting access to an area during planned burning operations in the approved Joint Fuel Management Program for 2023-26, this Determination replaces other Joint Fuel Management Program Determinations or any other Determinations and is in force until such time as this Determination is amended or revoked.

Access Prohibited means

- a. a person may not enter a 'Closed Public Safety Area' or contingency area on foot or on a bicycle or other vehicle.
- b. A person may not remain in or be present in a 'Closed Public Safety Area' or contingency area.
- c. A person must not place an obstruction within a 'Closed Public Safety Area or contingency area.'

<sup>4</sup>'Contingency Area' means an area adjoining a burning unit for which burning is an acceptable option should control lines around the planned area fail to contain the burn. It is identified within the Fuel Treatment Delivery Plan for a burn to assist in managing the risk of a planned burn breaching control lines.

<sup>5</sup>'Fire Operations Area' means any area of land managed by Parks Victoria as 'burn', 'planned burn' or 'non-burn fuel treatment' in any 'Fire Operation Plan' or in any map approved from time to time under a 'Fire Operations Plan'.

<sup>6</sup>'Fuel Treatment Delivery Plan': Fuel Treatment Delivery Plan or Burn Plan means the plan which is in the required format of the Department of Energy, Environment and Climate Action (DEECA), is approved for the conduct of prescribed burning and contains a map identifying the area to be burned and incorporates the specifications and conditions under which the operation is to be conducted.

\*\*\* Regulation 10 Determinations setting areas aside

(2) If, under a set aside power, Parks Victoria makes a determination setting aside an area in which an activity or conduct is required, restricted or prohibited, Parks Victoria must erect or display notices at or near the entrance to the area including –

- a. The area that has been set aside under the determination; and
- b. The nature of the determination; and
- c. in the case of an activity or conduct that is required or restricted, the conditions subject to which the activity or conduct must be carried out.
