Port Management (Local Ports) Regulations 2015

Port Management Act 1995 (Vic.)

Setting aside areas in the Local Ports of Port Phillip and Western Port

The *Port Management* (Local Ports) *Regulations 2015* have been made under Section 98 of the *Port Management Act 1995* (Vic.).

The *Port Management (Local Ports) Regulations 2015,* regulation 12, enable a Port Manager of a local port to make a determination to set aside an area where: *berthing, mooring or anchoring is permitted.* Regulation 14 provides that the Port Manager may specify certain conditions for the use of the areas under each determination.

Under Section 44C of the *Port Management Act 1995* (Vic.), the Board of Parks Victoria has delegated this power to Regional Directors of Parks Victoria in an instrument of delegation dated 18 December 2018.

I, Jo Richards, Regional Director Melbourne Marine and Maritime of Parks Victoria, determine under the *Port Management* (Local Ports) *Regulations 2015* that the areas indicated in the attached table and maps are set aside for the purposes specified or for the prohibition or restriction of access for the purposes specified, at the times or periods, and in accordance with the conditions, as indicated.

This determination replaces all previous set-aside determinations for the same purpose, and is in force until amended or revoked. All previous set aside conditions pertaining to these matters are revoked.

This determination applies from the date of signing.
