

Victorian Notice to Mariners

The following Notice to Mariners is published for general information.

30 April 2024
Australia – Victoria

No. 182(T) - 2024

Local Port of Western Port

The Narrows

San Remo Bridge – Reduced Air Draught and Navigation Direction for Pipeline Works

Date: Monday 6 May 2024 to Tuesday 10 December 2024.

Details: Mariners are advised of works occurring beneath the San Remo Bridge, 38°31.113'S, 145°21.862'E (WGS84), during the above dates.

The works will be undertaken via a scaffold system secured from the bridge structure. The scaffold will temporarily reduce the air draught under the bridge by approximately 2.5 metres.

The works period will contain four stages progressing the scaffold from East to West, thereby changing the navigable bridge spans as communicated by notice. Refer to Figure 1 for the stage one bridge span closure.

Mariners are notified of the temporarily reduced air draught beneath San Remo Bridge and required to navigate between the open bridge spans marked by lit lateral shapes only.

Relevant Law: Notice controlling navigation under 211(1)(a) of the *Marine Safety Act 2010* (Vic). Gazette No. S 211, 30 April 2024. **All vessel masters must transit through the lateral markers with day shapes and lights placed on the bridge and scaffolding to direct vessels through bridge spans with unaffected air draught. All vessel masters are prohibited from navigation under bridge spans that contravene traffic management established on site at that time.**
