

# What's Flowering

## Dandenong Ranges Botanic Garden Flower Update – 11 October 2019.

### Now flowering:

- Rhododendrons, camellias and azaleas are flowering, along with hellebores, proteas, and leucadendrons.
- The Cherry avenue has finished blooming; with the cooler weather impacting this year's display.
- Other cherries throughout the garden are still flowering.

### Coming Soon:

- Rhododendrons and azaleas will continue to flower throughout October.
